> SERIOUS CATTLE LOSES. Last Week's Storm in Western Kansas Bad for Cattle.

Sharon Springs, Kan., May 1-Snow in the valleys yet tells of the severity of the past week's storm in western Kansas. Farmers are coming in with reports of serious cattle losses. It is probable that more cattle have been killed than in all other storms of the winter combined. In Waliace county alone the losses will amount to 500 head: Other counties have equal losses, owing to the drifting of stock against the barbed wire fences and several thousand head will only approxi- Murdock to have a majority of at least mate the losses in Western Kansas and 10,000. The Republicans will turn out Eastern Colorado.

Republicans Must Get to the Polls---Don't Sleep.

Topeka, May 5.-The Capital says: C. F. Clyne, Democratic candidate for congress in the Hig Seventh district is trying to deal a march on Victor Murdock, the Republican nominee. He is going over the district urging the Democrats to go to work quietly and get out the full anti-Republicum vote at the coming election on May 36. He says that the Republicans are over-confident, that many of them will not go to the polls and that if the anti-Republican forces go ti the polls and vote he will have a good show of being

Clyne's scheme might work if the district was a close one politically and the Republicars were asleep. But neither is the case. Chester L Long carried the district last year by nearly \$,000 majority and a lot of hard, systematic work is being done by Murdock's managers. Tom Wilson, of Wchitis, chairman of the Reing out letters to the workers urging them to get the Republicans to the polls. Morton Albaugh, chairman of the Republican state committee, is doing the same and Murdock himself is making a handshuking campaign over the district, which while it does not create a big stir, is Malverne, England. having great effect.

Another thing which works against Clyne's scheme is the fact that the Democrate and Populists are not together the year. The Populists have a candidate. Judge W. J. Babb, of Wichita, in the field, and they will vote for him instead of Clyne, if they go to the polls. The Populists are thoroughly disheartened. They see that they are up against a bunco game, and that there is no sense or reason in them voting for the Democratic candidate. It is evident that next year the Democratic party will drop Bryan and Bryan's ideas, and adopt a platform emodying the theories and issues of the Cleveland-German-Hill wing. The last onnection between the Democratic and Populist parties will be severed. Being aware of this condition of affairs few Populists will go to the polis and if they do they will vote for their own candidate. The Democrats see there is no show of winning and they will be smilarly

"Murdock," said Morton Albaugh vesterday, "wil have a larger majority than Long did last year. Of course, the total vote will be a lot smaller, but I look for and vote, but there will be a large per cent of the Democrats and Populisis stay

The surveys of the district are now being made by County Surveyor H. C. Diesem, and as soon as they are finished the residents of the district expect to go ahead with the bond issue. The purpose they have in view is to tap the underdow of the river, and make it available for use, either by pumping or gravity. The natural flow of the Arkarsus is too uncertain a quantity to be

depended upon for crops, which need water at all times, and it is absolutely necessary that a more certain supply should be reached, if farming is to assume any greater proportions than it has at present. The people who are vot ing the bonds for the presecution of the work are quite confident of success in their undertaking.
